Curriculum Vitae

Deanna Carina Sale

Motivated, friendly and approachable individual who loves nothing more than helping to resolve problems. I have a professional appearance and always have a respectable and business-like manner when in a work environment. I am confident when handling customer enquiries, complaints and communications when in a face-to-face role as well as over the telephone. I am able to work to deadlines and meet targets in an effective and timely manner and can manage multiple workloads. I am looking for a suitable position within a company that provides a unique working environment which gives me the freedom to do a great job and can support me in achieving future ambitions. Broad industry experience to include healthcare, retail, hospitality and IT.

WORK EXPERIENCE

Radiology Assistant Practitioner June 2015-Current
NHS East Lancashire Teaching Hospitals Trust

- Carried out daily quality checks on radiography equipment to ensure and maintain the safe and effective delivery of radiation to produce diagnostic images.
- Carried out more in-depth quality assurance to ensure all equipment is working within specified limits as set by IR(ME)R and IRR regulations.
- Created an in-depth quality assurance baseline document to allow future quality assurance tests to be mapped and tested against up-to-date data.
- Kept up to date with current legislation and guidelines surrounding the safe delivery of radiation to patients to produce diagnostic images while keeping radiation doses to staff, patients and visitors to a minimum.
- Troubleshoot equipment and raise fault logs with the relevant parties to ensure all machinery working to the highest standard.
- Log all faults in the relevant databases to have an electronic record of all the machinery technical errors - whether software or hardware.
- Treat all patients with the upmost respect and compassion during their episode of care.
- To acquire images of the highest quality to aid in the diagnosis and treatment of pathologies.
- To follow departmental protocols surrounding safe manual handling.
- To work directly with other departments in the trust to arrange and organise workflow within the radiology directorate.
- Regularly taking phone calls from other departments and patients to advise on various radiology related enquiries.
- Carrying out regular stock-take of all items within the department to ensure stock numbers within limits and within budget.
- To perform clinical assessment prior to imaging patients to ensure radiology requests justified under IR(ME)R.
- To carry out critical analysis of all images produced to ensure optimal quality during the reporting process.
